

## Partners in Prevention Steering Committee

A seven member committee, guides and supports an array of coalition activities designed to engage the citizens of Longview in prevention of substance abuse, especially among youth. Through involvement of the entire community, this group works to create an environment in which at-risk young people can grow up healthy, responsible, educated, self-sufficient and drug-free. The mission is accomplished through mentoring, poverty reduction, drug awareness, neighborhood crime prevention, and youth recreation.
